

60 MIN WARM UP + ABS & ARMS & GLUTES CIRCUITS + LOWER BODY HITT with sliders

Class title: HITT Pilates **Duration:** 60 min; **Equipment:** mat, sliders

Class Purpose and Objectives: Focus on mind and body connection, stretch total body, and work the upper body, core, and lower legs with some HITT movements.

WARM-UP (5 minutes)

Duration	Moves	Movement	Purpose
30 sec	Breathing work	Push hips back and stretch fingers towards the top of the mat	Warm up the spine, stretch the hamstrings, thighs and abdominals
30 sec	head circles	Come to all 4s position starting with a neutral spine, inhale as you initiate movement through the chest, lifting it towards the ceiling, along with you gaze if it feels comfortable on the neck. exhale as you round your back and lift the gaze towards the ceiling, not dumping lower back	Stretch arms, back, and abdominals
30 sec	Side to side crunch	Hands besides ears, slowly exhale to side crunch towards one side, inhale lift neck back straight up, sit tall, and repeat on other side	
30 sec	Seated cat cows	Still in all 4s, pelvis parallel to the ground, lift right hand up, opening up the right side of the body, then move right shoulder below left shoulder as you thread the right arm under your belly, stay in this pose for a few seconds. Exhale to bring hand back up and then come back to neutral. Switch sides	Side body stretch

1 min	seated cat cow to half roll down	From tabletop position extend right arm forward and left leg back,. Hold briefly, then return to center and switch sides in a slow, controlled manner.. Add wrist circles as extended keeping hips square to the mat and core engaged	Strengthen core, glutes, and shoulders Roll-up preparation
-------	----------------------------------	---	---

end-> introduce equipment, state its just an option

Circuit #1: abs (10 min) Joseph Plates (10 sec rest between)

Duration	Moves	Movement	Purpose
1 min	Roll-ups	Knees bent, feet grounded on the mat. Exhale as you lift the head and shoulders, drawing the navel toward the spine and curling the ribcage toward the pelvis. Inhale as you slowly lower back to the mat with control. -> R: option to keep legs on mat	lower abs activation, hip flexor control, dynamic core stabilization
40 sec	Double Leg Stretch		
40 sec	Leg lowers		
40 sec	Tabletop Toe Tap		
40 sec	Dead Bug		
40 sec	Hundred		

****FOLD MAT**

Circuit #2: upper body and core (4 min, 15 sec recovery)

Duration	Moves	Movement	Purpose
1 min rest	Sit on mat	Describe the next movements: Go through all movements	

30 sec	Reverse plank to L-sit	Begin in reverse plank with hands and heels grounded, chest lifted, and sliders under heels of feet. Inhale to hold the reverse plank. Exhale as you bend at the hips and slide the legs toward an L-sit position, lifting through the core. Inhale as you return to reverse plank. -> R: Hold static reverse plank without sliding.	
30 sec	In and outs with sliders	Sit up straight on mat, arms slightly bent behind the back, sliders are still under heels, inhale to slide the legs out straight, leaning your torso back to counterbalance.	Total core
30 sec	Glute bridge	-> slowly lower down to mat, heels on sliders planed on mat, exhale to lift the hips up and squeeze at the top, inhale to slowly lower back down	Hamstrings, glutes and hip mobility
30 sec	Glute bridge curl	Lie on back with heels on sliders. Lift hips into bridge. Exhale as you slide heels toward glutes while keeping hips lifted. Inhale as you slowly extend the legs back out.	Hamstrings, glutes and hip mobility
30 sec	Glute bridge pulse	Pulse at the top with hips lifted and heels grounded to mt	Hamstrings, glutes and hip mobility

Circuit #3- lower body 10 sec rest

R-> dont use the sliders

Duration	Moves	Movement	Purpose
1 min rest	Come to standing	Describe the next movements: Start with left leg in front, slider under right leg behind	
30 sec	Single-leg lunge with slider	Stand with one foot planted and the other on a slider behind you. Inhale as the sliding leg moves back into a	Glute and quadriceps strengthening, balance, hip stability, controlled eccentric leg work

		reverse lunge while the front knee bends. Exhale as you press through the front heel and slide the back foot forward to return to standing. Maintain upright posture and engaged core.	
30 sec	Isometric hold Single-leg lunge with slider with pulse.	ower into a lunge with the back foot on the slider. Hold the position while maintaining a strong core and upright torso. Exhale as you perform small pulsing movements up and down through the front leg. Inhale maintaining stability between pulses. R-> static lunge hold without pulses. P-> add overhead reach	Muscular endurance in glutes and quads, knee stability, isometric strength, lower-body control
Turn your right leg so that your body is now facing the volleyball courts			
30 sec	-> side lunge sliding out	Stand with one foot planted and the other on a slider to the side. Inhale as the sliding leg moves outward while the standing knee bends into a side lunge. Exhale as you engage the inner thigh and glute to pull the slider back to center standing tall.	Inner thigh activation, glute strengthening, hip mobility, lateral stability
30 sec per	Isometric hold squat with side lunge	Staring in a squat, inhale as the sliding leg moves outward while the standing knee bends into a side lunge. Exhale as you engage the inner thigh and glute to pull the slider back to center staying low	Inner thigh activation, glute strengthening, hip mobility, lateral stability

Repeat on other side

Circuit #4 - Upper body and core 10 sec rest in between (If there is time) R-> dont use the sliders

Pyramid, after mountain climbers go back exercises on other side ↓↑

Duration	Moves	Movement	Purpose
40 sec	Straight leg sweep	Slider under toes on working leg, in a high plank, stay squared to the mat as you slide the straight leg outwards, perpendicular to the body, exhale to come back to center R-> do this on knees	Glutes, core, and upper body

40 sec	Straight leg sweep circles	Slider under toes on working leg, in a high plank, stay squared to the mat, exhale as you slide the straight leg inwards towards the chest, inhale to circle the leg outwards and slide back to center creating a circular motion R-> do this on knees	Glutes, core, and upper body
40 sec	Threat the leg and open to the side	In a high plank, slide working leg, pelvis parallel to the ground, lift right hand up, opening up the right side of the body, then slide working leg straight under the body towards the right side. Exhale to bring hand back up and then come back to neutral. Repeat	
40 sec	Sliders mountain climbers	Begin in a high plank with both feet on sliders, hands under shoulders. Exhale as you slide one knee toward the chest while keeping hips low and spine neutral. Inhale as you slide the leg back and alternate sides	Cardiovascular activation, core stability, hip flexor strength, shoulder endurance, dynamic full-body engagement

Circuit #5: upper body and core (4 min, 15 sec recovery)

Duration	Moves	Movement	Purpose
1 min rest	Sit on mat	Describe the next movements: Go through all movements	
30 sec	Reverse plank to L-sit	Begin in reverse plank with hands and heels grounded, chest lifted, and sliders under heels of feet. Inhale to hold the reverse plank. Exhale as you bend at the hips and slide the legs toward an L-sit position, lifting through the core. Inhale as you return to reverse plank. -> R: Hold static reverse plank without sliding.	
30 sec	In and outs with sliders	Sit up straight on mat, arms slightly	Total core

		bent behind the back, sliders are still under heels, inhale to slide the legs out straight, leaning your torso back to counterbalance.	
30 sec	Glute bridge	-> slowly lower down to mat, heels on sliders placed on mat, exhale to lift the hips up and squeeze at the top, inhale to slowly lower back down	Hamstrings, glutes and hip mobility
30 sec	Glute bridge curl	Lie on back with heels on sliders. Lift hips into bridge. Exhale as you slide heels toward glutes while keeping hips lifted. Inhale as you slowly extend the legs back out.	Hamstrings, glutes and hip mobility
30 sec	Glute bridge pulse	Pulse at the top with hips lifted and heels grounded to mat	Hamstrings, glutes and hip mobility

- Add one minute rest

****UNFOLD MAT**

Circuit #6: side body and core (no slider) -> no rest in between

Duration	Moves	Movement	Purpose
30 sec	Donkey kicks		
30 sec	Fire hydrants		
20 sec	Fire hydrant pulses		
30 sec	Cross overs		
20 sec	Rest, come to the side		
30 sec	Bent-knee leg lift		
30 sec	Pulse bent knee		
30 sec	Rotation knee and heel		
30 sec	Kick knee to chest and extend		
30 sec	Extended pulse straight back		
30 sec	Extended pulse in front		

->30 seconds break

>Repeat on left side

End- take childes pose and come to knees

Cooldown (10 min)

Duration	Moves	Movement	Purpose
30 sec	transition-> come to knees		
2 min	Hamstring stretch -> seated forward fold	Sit with legs extended forward. Inhale reaching arms overhead to lengthen the spine. Exhale as you hinge forward from the hips, reaching toward the feet while relaxing the neck and shoulders.	Hamstring flexibility, posterior chain release, gentle spinal decompression
30 sec	Lower down slowley	From seated, exhale as you slowly roll down to the mat one vertebra at a time. Inhale once fully lying down.	Spinal articulation, controlled transition to supine position, core engagement
4 min (2 per side)	Lying figure four ->lower ground, twist body towards opposite side -> switch sides	Lie on back with knees bent. Cross one ankle over opposite knee. Inhale to prepare. Exhale as you gently pull the supporting leg toward the chest, stretching the hip and glutes. -> use biceps for deeper stretch From figure four position, lower both legs toward the opposite side. Inhale to lengthen the spine. Exhale as you rotate into the twist while keeping shoulders relaxed on the mat.	Glute and piriformis stretch, hip mobility, lower back relief
30 sec	over head arm stretch	Extend arms overhead along the mat. Inhale reaching through fingers and toes to lengthen the body. Exhale relaxing shoulders and allowing the chest to open.	Full-body lengthening, shoulder mobility, relaxation
3 min	Shavasana	Lie comfortably on back with arms relaxed at sides. Slow inhale through the nose, slow exhale through the mouth. Allow the body to fully relax and breathing to settle naturally.	Relaxing the mind

end-> come to seated

Closing words: Thank you for coming today and working out early in the morning, amazing job!
Dont forget to wipe down your mat and the sliders. Have a great spring break!!
